WITNESSETH:

WHEREAS, Declarant is the owner of the real property hereinafter described as Article 1 hereof; and

WHEREAS, Declarant desires to subject said property to the following conditions, restrictions and charges for the benefit of said property and its present and subsequent owners; and

WHEREAS, the power to enforce certain of said conditions, restrictions, reservations and charges is to reside in California Country Club Homes Association, a nonprofit corporation (hereinafter referred to as the "Association"), whose members shall be Declarant and all future owners of record of building sites on said property: (sic)

NOW, THEREFORE, Country Club T.H. Corp., hereby declares that the property described in Article 1 hereof is and shall be held and conveyed upon and subject to the conditions, covenants, restrictions, reservations and charges hereinafter set forth:

Declarant contemplates the sale of the entire parcel, in lots for building sites in accordance with the general scheme or plan set forth in this Declaration. If, as and when Declarant determines to offer for sale portions of said land in addition to that described in Schedule A, it may subject such additional portions to these restrictions, with such modifications or alterations thereof or additions thereto as the circumstances may require, by appropriately recording a supplement hereto which shall be designated "Supplementary Schedule B". However, nothing contained herein shall be construed as requiring Declarant to subject to these restrictions any property other than that described in Schedule A. Declarant hereby expressly reserving the right and option to subject the other property referred to in this Article to these restrictions, if and when Declarant sees fit so to do; nor shall any property other than that described in Schedule A be deemed subject to this Declaration, or any of the conditions, covenants, restrictions, reservations and charges herein set forth, unless and until expressly subjected thereto, except that the property described in said deed dated December 15, 1950 from Beverly Management Corporation to Declarant shall be

subject to the covenant of Declarant, contained in Article 17 hereof, not to use the same for the purpose of exploring for, taking therefrom, or producing therefrom, gas, oil or other hydrocarbon substances.

ARTICLE 5.
CHARACTER AND SIZE OF BUILDINGS

§5.01 No building may be erected or maintained on any building site on said property except one (1) single-family dwelling house not more than two (2) stories in height above the main floor level, designed for occupation by not more than one family, together with the outhouses and garages hereinafter permitted.

§5.02 (a) Outhouses or garages (not more than one (1) story in height if appurtenant to a one-story dwelling house, and not more than two (2) stories in height if appurtenant to a two-story dwelling house) may be erected and maintained for the use of the owner or occupants of the building site upon which such outhouse or garage is located.

(b) Each outhouse and garage shall conform generally in architectural design and exterior materials and finish to the dwelling house to which it is appurtenant.

(c) No outhouse of any kind, or garage, shed or tent, or trailer used for living purposes, shall be erected or maintained on any building site prior to the erection thereon of the principal structure permitted to be erected thereon by this Declaration.

§5.03 No building, any part of which is designed for dwelling purposes, shall be in any manner occupied while in the course of original construction or until it complies with all requirements as to area and with all other conditions and restrictions applicable thereto. The construction of any building or structure shall be prosecuted with reasonable diligence continuously from the time of commencement until fully completed. Every building, fence, wall or other structure placed on any part of said property shall be constructed from new material, unless the use of other than any material therefore shall have received the written approval of the Association. No building constructed elsewhere shall be moved to or constructed on said property except with the written approval of the Association.

§5.04 Each dwelling house erected on said property, or any part thereof, shall face or front the principal street of the building site upon which it is located, as such principal street is indicated on Schedule A or said map therein referred to; provided that as to corner lots, a dwelling house may face or front a street other than the principal street, if the written approval of the Association is received therefor; and in such event the Association shall have the right to determine the extent and locations of the setbacks in and affecting such corner lot or lots.

§5.05 Each building erected or maintained on a building site shall have a full-pitched roof at the ratio or not less than three inches (3") or twelve inches (12") run.

§5.06 No dwelling house more than one (1) story in height above the main floor level having a smaller ground floor area (exclusive of porches, basements, cellars, and any garage incorporated in and forming a part of the house) than one thousand (1,000) square feet shall be erected; nor shall any dwelling house have a smaller total floor area than fifteen hundred square feet (exclusive of porches,

patios, basements, cellars, and any garage incorporated in and forming a part of the house); provided, however, that with the written consent of the Association, the minimum ground floor area of any dwelling house may be reduced by not more than one hundred (100) square feet, if such reduction, in the opinion of the Association, would not be detrimental to the appearance of such dwelling house.

ARTICLE 7.

APPROVAL OF PLANS.

§7.01 No building, fence, wall, pole or other structure shall be erected, constructed, altered or maintained upon any portion of said property, or of any property at any time within the jurisdiction of the Association, unless a complete set of plans and specifications therefor, including the exterior color scheme together with a block plan indicating the exact location on the building site, shall have been submitted to and approved in writing by the Association and a copy of such plans as finally approved deposited for permanent record with the Association. Such plans and specifications shall be submitted in writing for approval, over the signature of the owner of the building site or over the signature of his duly authorized agent, on a form prepared by and satisfactory to the Association. The approval of said plans and specifications may be withheld not only because of their noncompliance with any of the specific conditions, covenants and restrictions contained in this and other clauses hereof, but also by reason of the reasonable dissatisfaction of the Association with the grading plan, location of the structure on the building site, the color scheme, finish, design, proportions, architecture, shape, height, style or appropriateness of the proposed structure or altered structures, the materials used therein, the kind, pitch or type of roof proposed to be placed thereon, or because of its reasonable dissatisfaction with any or all other matters or things which, in the reasonable judgment of the Association, would render the proposed structure inharmonious or out of keeping with the general plan of improvement of said property or with the structures erected on other building sites in the immediate vicinity of the building site on which said structure is proposed to be erected. The purchaser of any lot, or portions of lots, for building sites in said property, by the acceptance of deeds therefore, or by the signing of contracts or agreements to purchase the same, shall be personally obligated to pay the Association a fee to be fixed by it for the examination, inspection and approval of each set of plans and specifications, et cetera, in accordance with the provisions hereof.

§7.02 The Association may, in its by-laws or otherwise, provide for the appointment of three (3) persons to constitute a Review Board, whose duties shall be to assist the Association in all matters referred to in Article 7 and to perform such other functions as the Association may assign to such Review Board from time to time. The members of such Review Board need not be members of the

Association. They shall hold office for such time as the Association by resolution may provide, and shall receive such compensation as the Association may from time to time determine.

§7.03 The approval of the Association for use on any building site of any plans or specifications submitted for approval, as herein specified, shall not be deemed to be a waiver by the Association of its right to object to any of the features or elements embodied in such plans or specifications if and when the same features or elements are embodied in any subsequent plans and specifications submitted for approval as herein provided, for use on other building sites.

§7.04 If after such plans and specifications have been approved, any building, fence, wall or other structure shall be altered, erected or maintained upon the building site otherwise than as approved by the Association, such alteration, erection and maintenance shall be deemed to have been undertaken without the approval of the Association every having been obtained as required by this Declaration.

§7.05 Any agent or officer of the Association may from time to time at any reasonable hour or hours enter and inspect any property subject to the jurisdiction of the Association as to its maintenance or improvement in compliance with the provisions hereof; and the Association and/or any agent or officer thereof shall not thereby be deemed guilty of any manner of trespass for such entry or inspection. The Association may issue a certificate of completion and compliance as to any property so inspected and make and collect a charge therefor.

§7.06 For the purpose of making a search upon, or guaranteeing or insuring title to, any lien on and/or interest in any lot or parcel of said property, and for the purpose of protecting purchasers and encumbrancers for value and in good faith as against the performance or nonperformance of any of the acts in this Declaration authorized, permitted or to be approved by the Association, the records of the Secretary of the Association shall be prima facie evidence as to all matters shown by such records; and the issuance of a certificate of completion and compliance by the Association showing that the plans and specifications for the improvements or other matters herein provided for or authorized have been approved, and that said improvements have been made in accordance therewith, or of a certificate as to any matters relating to the Association by the Secretary thereof, shall be prima facie evidence and shall fully justify and protect any title company or persons certifying, guaranteeing or insuring said title, or any lien thereon and/or any interest therein, and shall also fully protect any purchaser or encumbrancer in good faith and for value in acting thereon, as to all matters within the jurisdiction of the Association. In any event after the expiration of one (1) year from the date of the issuance of a building permit by municipal or other governmental authority for any structure, work improvement or alteration, said structure, work improvement or alteration shall, in favor of purchasers and encumbrancers in good faith and for value, be deemed to be in compliance with all the provisions hereof, unless actual notice executed by the Association of such noncompletion and/or noncompliance shall appear of record in the office of the County Recorder of Los Angeles County, California, or legal proceedings shall have been instituted to enforce completion and or compliance.

ARTICLE 8. SETBACK AND LOCATION OF BUILDINGS.

In the case of corner building sites, outhouses shall be located on the rear one-quarter (1/4) of the building site (computed from the street upon which such building site has its principal frontage) and a set back of not less than twenty (20) feet from any other street. Dwelling houses shall have a setback of not less than ten (10) feet from the rear lines of the building sites upon which they are respectively located.

§8.04 Each dwelling house shall have a setback of not less than five (5) feet from each side line of the building site on which it is located, except that in the case of corner lots, the setbacks from the side lines along the streets shall be those indicated in Schedule A and the map therein referred to. No portion of any dwelling house shall encroach on any such side line setback area, except that: (a) eaves, porte cocheres, open pergolas, uncovered porches, stoops or steps the balustrades or sides of which do not extend more than three (3) feet above the level of the first floor of the dwelling house, may encroach on any such side line setback area; and (b) exterior chimneys may encroach for not more than twenty-six inches (26") into any such area.

ARTICLE 9.

SIGNS.

No sign or other advertising device of any character shall be erected or maintained upon any part of said property, except that on any one lot or building site one sign, not larger than eighteen (18) by twenty-four (24) inches, advertising the property for sale or for rent, may be erected and maintained behind the setback area of such lot or building site as to any street.

Building sites situated on the real property described in Schedule A shall be deemed to have their principal frontage on the streets respectively designated in said Schedule as the streets on which such sites have their principal frontage.

§11.02 If the setback of any building or the width or principal frontage of any building site be difficult of determination by reason of its irregular shape or otherwise, or if the extent or location of the side line setbacks required for any building by Article 8 of this Declaration be uncertain, the Association shall in all cases determine what is to be deemed the principal frontage or the setback of such building or the width of such building site, or the extent and location of such side line setbacks, as the case may be, and the decision of the Association in respect thereof shall be final.

§11.03 The setback of any building, or the width of any building site, or the location and extent of side line setbacks may, in any such cases, be determined by the Declarant prior to sale and be particularly described in the contracts and deeds covering the lots or building sites as to which such determination is made by Declarant.

§11.04 If two or more setback provisions of this Declaration as to the same street line and affecting the erection and maintenance of the same class of building are applicable to the same lot or building site, then the setback provision requiring the greater setback shall control.
